

JONAH HONTOS

Full Stack Web Developer

jonahhontos@gmail.com • 805-746-5777 • LinkedIn: www.linkedin.com/in/jonahhontos

PROFESSIONAL SUMMARY

Full stack web developer with over 9 years of experience building and maintaining high-traffic eCommerce platforms. Expertise in modern JavaScript frameworks including [React.js](#) and [Vue.js](#), as well as [Node.js](#) and SFCC development. Experienced in major framework migrations, implementing third-party integrations, and delivering complex features under aggressive timelines.

TECHNICAL SKILLS

Frontend: [React.js](#), [Vue.js](#), TypeScript, JavaScript, HTML5, CSS3/SCSS, Responsive Design

Backend: [Node.js](#), Python/Django, REST APIs, MongoDB, PostgreSQL, GraphQL

Tools & Platforms: Git, Salesforce Commerce Cloud (SFCC/SFRA), Shopify, Dash Social, Maxymiser (A/B Testing), Adyen, Feedonomics, AgilOne

Other: SEO Implementation, Data Analytics, ADA/WCAG Accessibility, PCI Compliance, Apple Pay/PayPal Integration

PROFESSIONAL EXPERIENCE

Burton Snowboards | *Full Stack Web Developer* | Sep 2022 - Jan 2026

- Designed and built a highly customized promotional badge management system for product tiles, enabling merchandising team to take fine-grained control over first-impression messaging across individual product variations and increasing relevancy and accuracy of listings
- Developed [Vue.js](#) components during full-site framework migration from [React.js](#), collaborating with a team of eight developers to deliver a full redesign of the PLP, PDP, Cart, and Account sections of the site, leading to greater code coherency and significant improvement of 20%+ across performance metrics
- Implemented SEO enhancements, resulting in more robust product and page listings, and an optimized sitemap, and shaving off initial page load times of 0.5s-1.5s+ by delivering large images and video via lazy-loading
- Integrated third-party user-generated content platform (Dash Social) across PDP, content pages, and Page Designer components, building brand authenticity and customer intimacy
- Maintained the Burton blogs platform using Python and Django

Fox Racing | *Front End Developer* | Sep 2021 - Aug 2022

- Helped establish in-house development team following SFRA re-platforming initiative
- Assumed technical leadership responsibilities including code review, managing full deployment pipeline from pull requests through production releases, and creating technical documentation for new initiatives
- Built custom Page Designer (Salesforce CMS) components enabling merchandising team to independently manage content without developer intervention
- Delivered third-party integrations including Klarna (buy-now-pay-later) and Zenkraft (shipping)

PixelMEDIA | *Full Stack Developer* | Jan 2021 - May 2021

- Maintained sites for high-profile eCommerce brands as part of a major Salesforce Commerce Cloud SI agency
- Executed third-party integrations including Feedonomics product feed installation and OMS migration to TOMS
- Supported complex, heavily customized site with custom backend integrations and [Vue.js](#)-based sales funnel
- Implemented new SFRA backend functionality to meet evolving business requirements

Guthy-Renker LLC | *Full Stack Developer* | Jul 2016 - Dec 2020

- Simultaneously maintained 10-12 eCommerce sites and brands, managing constant rotation of new site launches and brand transitions

- Delivered full site launches on aggressive timelines, going from receiving final creative to releasing to production in as little as 1-3 months
- Implemented payment integrations including Apple Pay and PayPal, along with AgilOne customer data platform
- Developed sophisticated A/B testing implementations using Maxymiser, leading to a steady pace of continuous improvement to conversion and revenue
- Collaborated with technical architects to design and implement new features on a highly customized Site Genesis backend
- Resolved PCI security compliance issues and performed ADA accessibility assessments, implementing solutions to meet WCAG standards

EDUCATION

General Assembly | Web Development Immersive, 2016

Intensive full-stack program covering Node.js, MongoDB, PostgreSQL, Angular.js, and Ruby on Rails

California State University, Chico | B.A. Music Technology, 2009
